Making Retail Move

Footwear Today Editorial

Global reach...

Sourcing merchandise from a wide range of production countries and making your supply-chain truly global has obvious advantages. Trouble is, companies find the complexity of taking the leap into bringing everything together a huge challenge, and one that can lead to unexpected and unwelcome costs creeping into the equation. So, we've developed a personalised service that provides individual supply chain solutions to any or all of the problems, by working in close partnership with clients, their suppliers and retail stores.

Our services are based on a unique understanding of the supply chain, embracing the requirements of and inter-relationships between Suppliers, Manufacturers, Distribution Channels and Retail Organisations, in addition to the multiplicity of shippers and handling agents involved in international supply functions. The TNT Fashion Group culture is centred around flexibility and service excellence.

We promote a philosophy that is designed to ensure that a 'Best-in-Class' and a 'First-in-Class' service offering is achieved, delivering competitive differentiation and therefore advantage in the short, medium and long term for our customers

Footwear sourcing is being conducted from a diverse range of origin points, including China, Vietnam, India, Brazil, Spain, North Africa and many more, and TNT Fashion Group manages this diversity in a seamless manner with complete visibility of supply achieved through world-class systems deployment. For retailers who truly wish to streamline their supply-chain and maximise their range 'freshness' we offer delivery direct to store according to pre-planned allocation strategies, thereby reducing the amount of inventory to be held for replenishment purposes.

The global reach and control of our systems allows us to move value-added services right back up the supply-chain, delivering increased value and competitiveness. Factor in our comprehensive range of customs services and you know you're in good hands.

TNT Fashion Group – delivering value, innovation and competitiveness, every day, swapping your supply-chain complexity for peace of mind.
